Dr. William M. Preston,
Director
Cyclotron Laboratory
Harvard University
Cambridge, Mass. 02138

Dear Bill:

I am writing to thank you, and all those connected with the cyclotron, for your hospitality and co-operation over the past ten years. It has been a happy and fruitful association for me--one which I am sorry to see coming to an end.

It seems that the machine will no longer run as a cyclotron, and it is probable that I switched it off for the last time. This occurred at 4:15 on December 30th when Mildred Widgoff and I were running to complete some work which she, Andy Koehler and I have been engaged on over the last couple of years. Out of habit, I carefully ran down the filament current before switching it off!

Yours sincerely,

Allan M. Cormack
Professor of Physics
